Bloomberg 2007 Q1 Global Financial Mergers & Acquisitions Rankings

From the mega-deals to the smallest private transactions, Bloomberg's M&A league tables are your one-stop shopping source for constant and timely access to the most comprehensive information available on financial and legal deal representation. Our team of expert analysts provide 24-hour, real-time coverage of global merger and acquisition activity in an easy to use format that gives you the edge you need to gain insight into the areas of expertise of M&A's main players.

Just type **MA <GO> 7 <GO>** to either select a standardized league table or create up to 14 customizable searches based on the criteria most relevant to your business strategy. For more on Bloomberg's valuation and standards, type **MA <HELP> 9 <GO>**. Alternatively, press the green <Help> key on your Bloomberg Professional® for further instructions.

M&A Snapshot

- 6,869 deals were announced in the first quarter this year, amounting to \$1.07 trillion in transaction volume, a 12% increase from the same period last year.
- 37% gain in private equity transaction volume, with 583 announced deals worth \$188 billion in total value. We are seeing slightly larger private equity transactions, with the average deal size increasing by \$190 million compared to 2006 Q1.

M&A Market Outlook

- While we are not experiencing an M&A boom as intense as last year's, there are positive indications that the market will continue to grow. The economy is expected to expand at a moderate pace, inflation is expected to decline slightly, and business investment and consumer spending should continue to grow. These are all signs of a healthy environment for mergers and acquisitions.
- Strong balance sheets and shareholder demand continue to encourage strategic acquirers to seek growth opportunities through acquisitions. Significant un-invested capital and a healthy fundraising environment will allow buyers to remain aggressive in the M&A market.

M&A Market Trend

- Financial services was the most active industry by dollar volume in the first quarter, led by big deals like Citigroup's bid for the remaining shares of Nikko Cordial and IntercontinentalExchange's competing bid for CBOT Holdings Inc.
- Private equity activity remains strong with an average deal size of \$747 million, marking a 34% percent increase from the \$557 million average size in 2006 Q1. We saw the top takeovers come from various industries, including a utilities industry record-breaking \$43 billion buyout of TXU Corp, a reshuffling of the ranks within the computer services sector with the takeover of Affiliated Computer Services, and a rattling of discount retail competition with an offer for Dollar General Corp.
- M&A growth was strongest in the US with \$593 billion in volume, representing a 37% increase in volume from the same quarter last year. Europe, which experienced a record quarter high in 2006 Q1, weathered a decline of 8% in M&A volume with a total of \$487 billion. Asia gained a steady 18%, reporting \$192 billion worth of transactions.

Bloomberg 2007 Q1 Global Financial Mergers & Acquisitions Rankings

Bloomberg 2007 Q1 M&A league tables represent publicly disclosed transactions that were announced between January 1, 2007 and March 31, 2007, that are either pending or completed, and for which Bloomberg has been notified.

Bloomberg M&A league tables include all mergers, acquisitions, divestitures, self-tenders, spin-offs, debt-for-equity swaps, and privatizations according to Bloomberg standards. A minimum of 5% equity or USD 200 million total value is required for initial stake purchases to be included in league tables. League table credit is based on announced total value of a deal. The announced total value represents the price paid, not the value of individual companies or their assets.

Bloomberg LP and its suppliers believe the information herein was obtained from reliable sources, but they do not guarantee its accuracy. Neither the information nor the opinion expressed constitutes a solicitation of the purchase or sale of securities or commodities.
